KLOROFIL SCIENTIFIC

...facilitating research

ABOUT US

Klorofil has been derived from a natural green pigment the word called “**Chlorophyll**”, the lifeline of all living beings. Often referred to by scientists as the “**life giver**”, chlorophyll inspires our mission to act as a catalyst for scientific progress and to empower research initiatives within the scientific community.

Our team is composed of highly qualified and experienced professionals with a profound understanding of customer requirements and scientific instruments. This expertise allows us to develop superior solutions that meet the specific requirements of your organization. We believe in the importance of employing highly trained technical personnel for the marketing and sales of our products.

Mr. Maninder Angaria
Managing Director

From the desk of the Managing Director

The scientific landscape is constantly evolving, and our clients – from leading research institutions rely on us to deliver the most innovative solutions. This year, let us strive to surpass these expectations. By capitalizing on our profound understanding of scientific research and industry trends, we can equip our clients with the tools and technologies that will propel their scientific endeavors forward. It is paramount to remember that our success is contingent upon fostering robust relationships with the scientific community and ensuring they possess the necessary resources to achieve groundbreaking discoveries. Let us resolutely maintain our position as the trusted partner that fuels advancements in science.

OUR FOUR CORE VALUES

• FACILITATING RESEARCH

We function as a facilitator of research, furnishing scientists. Recognizing the paramount significance of scientific advancement, our organization transcends the role of a mere sales entity. With the superior quality scientific products indispensable for achieving breakthroughs. Through our extensive selection of equipment and supplies, we empower researchers to explore their groundbreaking ideas and translate discoveries into tangible realities.

• LEVERAGING NATURAL SCIENCE

At the forefront of scientific discovery lies the application of natural science principles. We are committed to partnering with you in this endeavor. Recognizing the critical role of appropriate tools and materials in research, we offer a comprehensive range of high-quality scientific products. These products undergo rigorous testing to ensure they meet the exacting standards demanded by your research. By incorporating the latest advancements in natural science, our products empower you to make groundbreaking discoveries and propel the boundaries of scientific exploration.

• TECHNICAL SALES APPROACH

Within the scientific community, An effective approach prioritizes comprehending the researcher's specific research goals and the challenges they currently face. By posing insightful questions, you can uncover their critical needs and tailor your strategy to convincingly demonstrate how your scientific products can serve as the optimal solution. By assuming the role of a trusted advisor and communicating fluently in the scientific language they utilize, you can effectively guide them towards achieving the most impactful outcomes for their research endeavors.

• OFFERING SUPERIOR SOLUTIONS

In today's competitive research landscape, having the right tools can make all the difference. At our company, we understand that scientists require superior solutions to achieve groundbreaking results. That's why we go beyond simply selling scientific products. We take the time to understand your specific research needs and recommend innovative equipment and consumables that are designed to enhance your workflow and deliver exceptional performance. Our commitment to offering superior solutions ensures you have the tools you need to unlock the full potential of your research.

OUR BUSINESS PARTNERS

Product Range

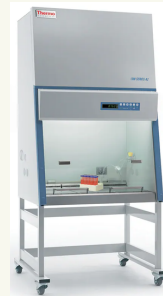

**ThermoFisher
SCIENTIFIC**

**Refrigerated &
Non Refrigerated Centrifuge**
Benchtop / Floor top Models

Incubators / Ovens
General Incubators
CO2 Incubators
BOD Incubators
Thermal Incubators etc.

**Biosafety's And
Laminar Hoods**
2,3,4 feet biosafety's
NSF certified
Touchscreen
Realtime Inflow/Down flow
Dual DC Motor
Easy to clean

**Cryocan and
Liquid Nitrogen Containers**
upto 189 litres

**Laboratory Refrigerator ,
Deep Freezers and -80's**
2-8 Degrees
-20 Degrees
-40 Degrees
-86 Degrees

Shakers
Orbital shakers
Incubator shaker
Laboratory Shakers
Benchtop shakers

Water Purification System
Type 1/ Tpe 2 / Type 3 Water

NanoDrop Spectrophotometer
Quantify DNA, RNA, and
protein samples in seconds
with only 1-2 µL

UV-Vis Spectrophotometer

FTIR Spectrometer

Water Bath
Circulating water Bath
Shaking water bath
Refrigerated Water Baths
